Basics of Choosing a Shed

1. Check your site level and space. What size will fit?
2. Choose a size that provides adequate storage and fits in the space
3. Choose a style that gives you the look and features you want
4. Choose your options such as shelving, windows, venting, etc
5. Choose the color of your roof and paint
6. Can it be prebuilt and delivered or need to be built on site
7. Choose your payment options

Don't see the size you want? Don't worry - we can build to suit your needs!

Site Preparation

- Is done by the home owner
- Ideal site prep includes 3" to 4" gravel pad leveled 12 inches larger than the perimeter of the building

We Deliver

- Delivery options include either prefabrication or on site construction
- Our state of the-art equipment makes your shed delivery a breeze
